

# Project Scope

## The Client:

National Domestic Violence Foundation

## The Concern:

Mitchell wanted to start a new foundation supporting survivors of domestic violence. Mitchell needed a:

- Constitution to apply to ACNC
- Logo
- Website
- Policies
- Administrative Support

## The Approach:

TAA designed a beautiful logo that Mitchell loved and captured the essence of the foundation. We assisted in providing the Constitution to get the ACNC application approved, as well as providing basic policies to get the foundation going.

The website was built with the capacity to include videos, resources and training to advocates for the foundation and visitors

## The Outcome:

National Domestic Violence Foundation was thrilled that they were able to go to one place and have all of the aspects required covered and not have to project manage a variety of services. TAA was able to take care of all of his needs and project manage all elements of the establishment of the foundation for him.
